UNIVERSITY OF APPLIED SCIENCES

Rubric: Program & Career Orientation

Total: 100 points = grade 10

Component	Points	Insufficient	Sufficient	Good
Pages created	**10**	**0–4 pts** One or more pages are missing, or pages have been created but are essentially empty/non-functional.	**5–7 pts** All four pages have been created and contain content, but there are minor issues (e.g. broken links between pages, inconsistent structure/navigation).	**8–10 pts** All four pages have been correctly created, are linked to one another, function properly, and are clearly structured.
Professional goals, study success & SWOT analysis *(goals.html & direction.html)*	**30**	**0–14 pts** Goals are missing or very vaguely formulated. No SWOT analysis, or only a superficial one with no link to the goals. No concrete picture of what the student needs to complete their studies successfully.	**15–23 pts** Professional goals have been formulated and a SWOT analysis is present, but the link between the SWOT and the goals is limited or only superficially worked out. What is needed to study successfully is mentioned but not very concrete or substantiated.	**24–30 pts** Clear, concrete, and realistic professional goals. The SWOT analysis is thorough, honest, and complete, and is explicitly and logically related to the stated goals. There is a concrete and well-substantiated picture of what is needed to complete the studies successfully.
Personal motivation for ICT, the program, and HZ (long term) *(why-it.html)*	**30**	**0–14 pts** Motivation is barely or not at all personal/substantiated; generic or superficial text. No clear link to ICT, the program, or HZ specifically. Long-term perspective is missing.	**15–23 pts** Motivation is personal but partly superficial or not fully substantiated. Link with ICT, the program, and HZ is present but brief. Long-term perspective is mentioned briefly but not elaborated much.	**24–30 pts** Motivation is personal, authentic, and well substantiated. Clear and convincing link with ICT, the chosen program, and HZ specifically. Long-term perspective is concretely and thoughtfully worked out.
Knowledge of and picture of the future IT direction *(direction.html)*	**30**	**0–14 pts** Little to no knowledge shown of Data Science and/or Software Engineering. No clear picture of the field or of one's own direction.	**15–23 pts** Knowledge has been taken of both directions, but the elaboration remains superficial or one-sided. A picture of the field is present but not yet fully sharp or substantiated.	**24–30 pts** It is clearly evident that in-depth knowledge has been taken of both Data Science and Software Engineering. There is a sharp, well-substantiated, and personal picture of the field and of one's own preference/direction within it.

Total: _____ / 100 points → Grade: _____
